ADVISICON PRESENTS TWO COMPLIMENTARY WEBCASTS
OCTOBER 7TH, 2010 AT 9:00AM AND 1:00PM EDT

DISCOVER LATEST TRENDS IN PROJECT/PORTFOLIO MANAGEMENT
USING PROJECT SERVER 2010

These sessions will be delivered by two sought after Advisicon Team Members: one is a regular PMI/Microsoft Conference Presenter and the other is a Microsoft MVP.

This event is for professionals who want to seek in-depth knowledge on Microsoft Project Server 2010 for Demand Management, Schedule and Resource Management, Business Intelligence and Collaboration.

We will also include information about capturing schedule elements that conform to world-wide professional standards, project management performance domains, the program management lifecycle, and how portfolio management fits within Enterprise Project Management.

There are no pre-requisites, and anybody with basic project management knowledge, in any industry or domain can attend this event. Also, PDUs will be available!

October 7th, 2010 – 9:00AM EDT
Cindy Lewis, MBA, PMP, MCT, MCTS, MCITP, PMI-SP

Discover the latest trends in Project Management and how Enterprise Portfolio Management is enabling organizations to be leaders in the marketplace! You will learn:

SPEAKERS

CINDY'S PROFILE

Cindy is a Senior Knowledge Management Solution Advisor at Advisicon, Inc. She brings 15 years of experience in training and managing large projects. As a professional project manager, Cindy has focused her career on Information Technology projects specializing in company-wide system implementations spanning industries such as financial, health care, manufacturing, education and high tech. Cindy has in-depth expertise in lifecycle management, organizational project/portfolio process development and management, and customized curriculum development and execution.

Cindy also enjoys leading large groups and has provided extensive training on Microsoft Project via both live and virtual classrooms. In addition to teaching, she has taken a role as the lead author for Microsoft on new courses in Microsoft Project and Project Sever. Cindy will be presenting at PMI Global Congress in October on the topic, "Scheduling is NOW a career: What You Need to Know!"

MANMEET'S PROFILE

Manmeet (Meeta) is a Senior Project Advisor at Advisicon Inc. with a career history in diverse aspects of information technology, enterprise level IT, business analysis implementation and training. She has led the delivery of complex business processes and enterprise solutions to fortune 100 companies in Asia-Pacific, India and North American markets.

Her expertise is in providing technology consulting services with life cycle implementations for a variety of industries including Health Care, Airline, Financial, Manufacturing, and Energy.

She is proficient in architecture design, development, and delivery of business intelligence using business portals & collaborations systems. Manmeet has in-depth knowledge of Microsoft based technologies including SharePoint, Business Intelligence platforms such as Project and Portfolio Server and various software development methodologies.

She was given the MVP (Most valuable professional) award for the year 2009 and 2010 by Microsoft for her contributions in Microsoft Project (one of only 40 worldwide).

Microsoft Most Valuable Professionals (MVPs) are exceptional technical community leaders from around the world who are awarded for voluntarily sharing their high quality, real-world expertise in offline and online technical communities.
